

PETITION to The House of Representatives

To reinstate Clause 5.2.2.1(a) into the Christchurch District Plan (2018)

I wish to submit this petition to request that:

1) Clause 5.2.2.1(a) which was omitted from the Christchurch District Plan be reinstated by Section 71 of the Christchurch Regeneration Act or any powers necessary, using the wording as intended by the Independent Hearing Panel. (as highlighted)

In High Flood Hazard Management areas:

(a) Provide for development for a residential unit on residentially zoned land where appropriate mitigation can be provided that protects people's safety, well-being and property;

2) An independent inquiry is established by the Government to investigate how and why Clause 5.2.2.1(a) came to be omitted from the Christchurch District Plan and to recommend measures that are considered appropriate and necessary to prevent this happening again.
